

Polypharmacy Medication Analysis & Report Tool (Poly-MART)

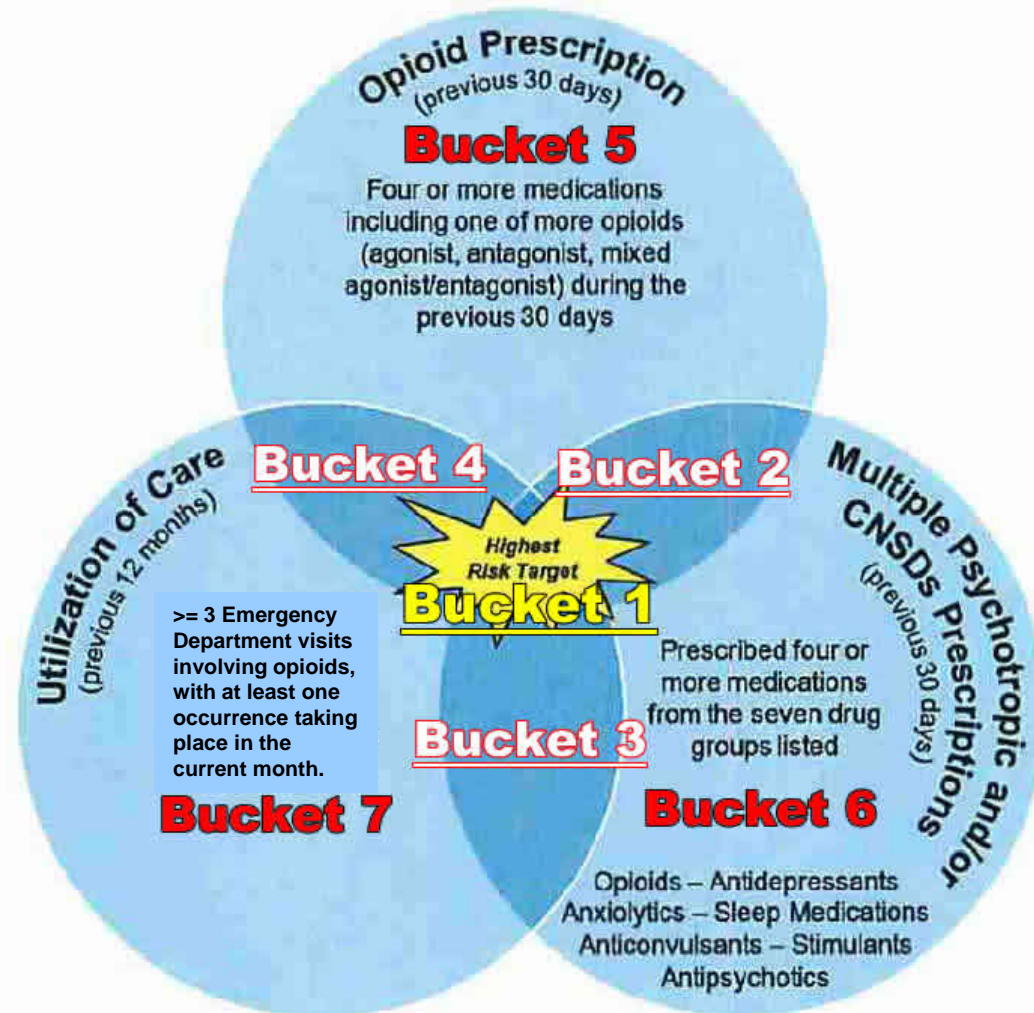

Polypharmacy / Poly-MART Details

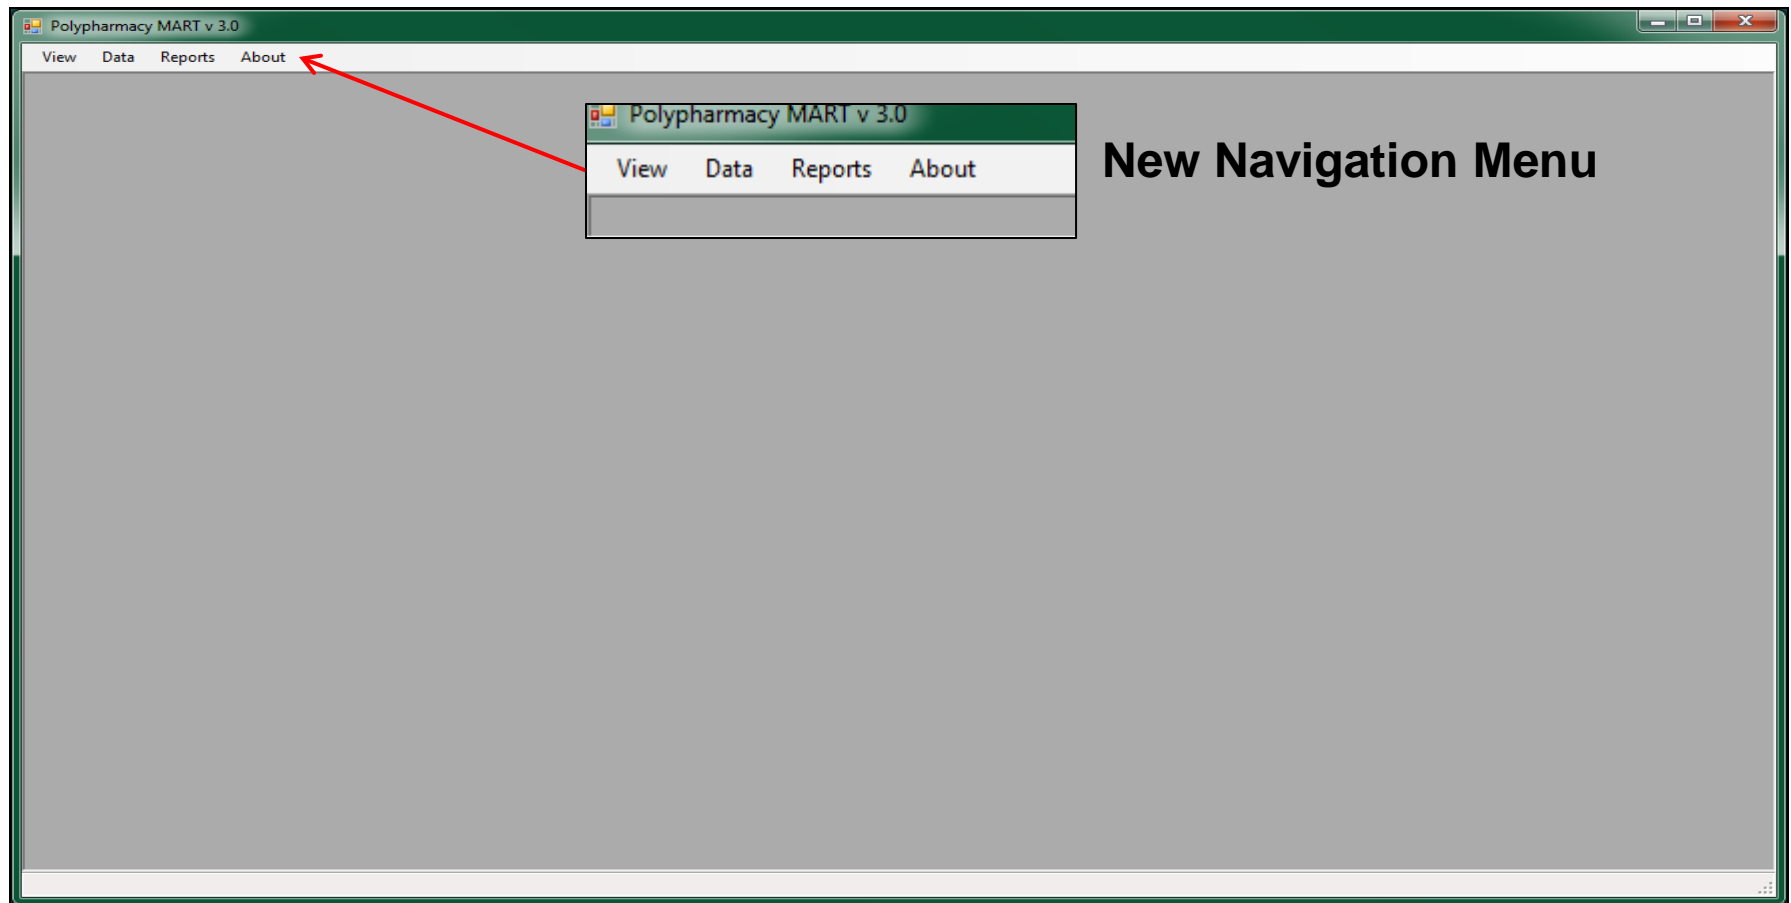

- **Polypharmacy Medication Analysis & Report Tool (Poly-MART) was designed to support OTSG Policy 13-032.**
- **This tool has been designed to identify enrolled members to MTF installations for direct care.**
- **Utilizing this method of populating member information is dependent on current enrollment information, which can be controlled at MTF enrollment locations.**
- **Medication prescription history is current for the given month where the TRICARE pharmaceutical benefit was utilized; including MTF, Mail Order, & Retail Network Data. The ER data is current on a rolling 12 month time frame.**
- **Data is captured from the PDTS data warehouse and M2 data repository.**

Bucket Design

- The POD/PASS added a bucket numbering convention to correspond with specific circles and overlapping areas. The reports within the tool uses the bucket terminology with numbers to identify which circle or area the members fall in.

Alpha Roster Set Up

Alpha Roster Management

Use the controls below to locate and load the alpha roster you wish to use with the current polypharmacy file. While for easy of use it is recommended to use the template fashioned by the POC, you may map your own custom formatted alpha roster using the mapping section below. When mapping a custom alpha roster you must identify a column in your alpha roster that will link to either the SSN or DEERS ID of the service members provided in the polypharmacy data file and are limited to three (3) levels of grouping.

Alpha Roster File Path:

Alpha Roster Parameters

	A	B	C	D	E	F	G	H	I
1	FullName	SSN	Unit	Sub1	Sub2				
2									
3									
4									
5									
6									
7									
8									
9									
10									
11									
12									
13									
14									
15									
16									

These columns headers must keep name, BUT can be whatever data is useful to you (Unit, UIC, Battalion, Company, MPERS, etc ...)

MUST contain member SSN with no dashes including leading zeros
